

770th Business Support Squadron

The 770th Business Support Squadron provides a broad range of support to the Enterprise Sourcing Group aligned organizations, manages the business operations of the organization, including resources and information technology and delivers cross cutting acquisition support to the organization's strategic sourcing process. The 770th has four flights performing the following functions:

- Manages performance reporting, contingency requirements, personnel and budget actions, force development, non-acquisition training and self-inspection
- Directs the financial planning, programming, budgeting and execution for the ESG
- Provides automated systems support to allow creation and maintenance of strategic sourcing vehicles
- Serves as the quality assurance and standardization focal point for all actions performed under the ESG
- Performs contract clearance reviews, interprets relevant policy and conducts site visits, program management reviews and inspections
- Provides pricing support for large dollar acquisitions

History

The 770 BSS stood up to support acquisitions and business functions across the Enterprise Sourcing Group.

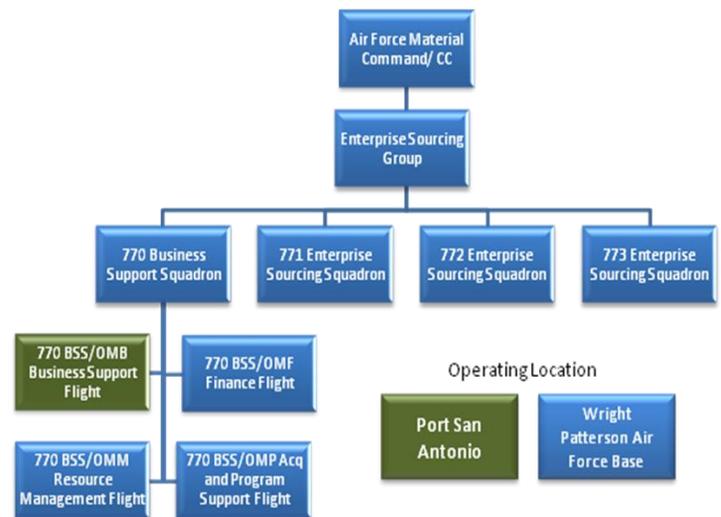

Goals

The goals of the 770 BSS are to:

- Recruit, train and retain a high performing workforce
- Provide financial management, fiscal policy and execution of ESG resources
- Provide compliant, timely, and efficient acquisition support to the ESG

- Standardize acquisition processes across the ESG and with customers
- Educate requiring activities on services documentation standards

The 770th is part of the ESG, which reports to Air Force Materiel Command. The 770th has three flights operating out of Wright Patterson Air Force Base and one flight out of Port San Antonio. The chart below depicts the organizational structure and hierarchy of the 770th.

Industry Impact

Through its knowledge and experience, the 770 BSS provides the infrastructure necessary for the operational squadrons to effectively and efficiently source the enterprise.
